

AquilaAI Data Privacy Policy

AquilaAI is committed to protecting customer data and maintaining strict data privacy standards.

Customer documents uploaded to AquilaAI are processed only for the purpose of enabling document retrieval and question answering.

AquilaAI does not use customer data to retrain or fine-tune foundation language models.

All document processing occurs in isolated environments. Customer data is never shared across different tenants.

Uploaded documents and derived data are retained for a maximum period of 30 days unless otherwise agreed through contractual terms.

AquilaAI does not share customer data with third parties without explicit customer consent.
